

# PROGRAM GOAL SEMINAR

2011

## GEO-RISK MANAGEMENT A GERMAN-LATINAMERICAN APPROACH

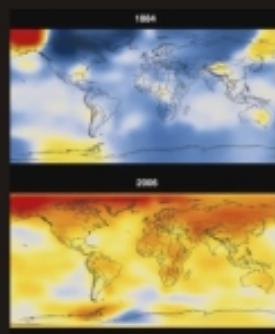

Earthquakes and  
tsunamis

Landslides

Volcanic eruption  
and Lahares

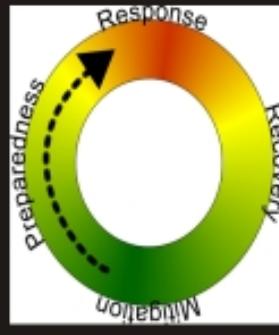

Climatic Change  
Regional Perspective

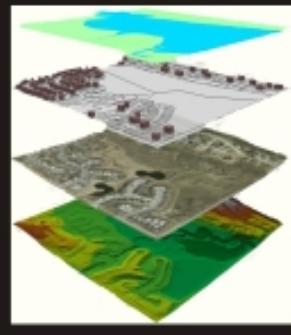

Extreme weather  
dust and aerosol

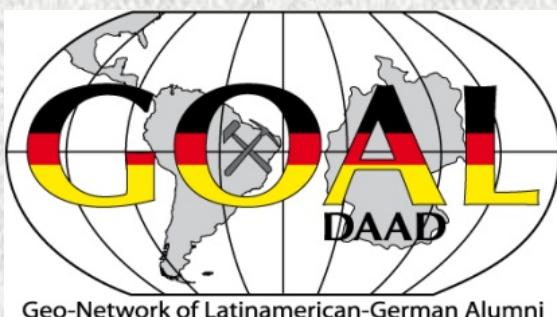

Water  
contamination

Terminology  
Mitigation

Land Use  
Public Outreach

Geo-Network of  
Latinamerican-  
German Alumni

[www.goaldaad.com.ar](http://www.goaldaad.com.ar)

02. – 04.04.2011

The DAAD-funded seminar takes place in the Building of the Geological and Mineralogical Institutes (Im Neuenheimer Feld 234, lecture hall of the Museum). The seminar is open for interested persons from academic institutions and companies. Please register until February 28<sup>th</sup>, 2011, by email quoting your name, full address and affiliation (email to [cbreit@geo.tu-freiberg.de](mailto:cbreit@geo.tu-freiberg.de) with copy to [msteffen@gmx.com](mailto:msteffen@gmx.com)). Fees for a one-day participation are 20 €, for all three days: 40 €.

## Program

**02.04.2011**

09.00 Registration

09.45 Welcome (**Christoph Breitkreuz**, TU Freiberg, and RKUH representative)

10.00 **Anselm Smolka** (Munich Re): Risk Management of Natural Perils in Munich Re: From Managua 1972 to GEM

10.45 Coffee break

### 1. Earthquakes and tsunamis

11.15 **Lothar Stempnieski** (Karlsruhe Inst. Technology): Earthquake risk reduction

11.50 **Simon Kübler** (LMU München): Paleoseismics in the Bay of Cologne

12.30 Lunch

14.15 **Allan López** (I.C.E. Costa Rica): Potencial de reactivación de fallas en el retorno del gran área metropolitana, San José, Costa Rica: un aporte al manejo de sus riesgos geológicos

14.45 **María Eugenia Cisternas** (UdeC, Chile): Responsabilidad social de los geocientistas en el manejo de riesgos: Enseñanzas derivadas de la experiencia chilena con el megaterremoto del 27 de febrero 2010

15.15 Coffee break

15.45 **Jose Frutos** (Universidad de Concepción, Chile): Riesgos de tsunamis en los bordes costeros en zonas de subducción (Chile): parámetros geológicos que inciden en el desarrollo del fenómeno, respectivas características y posibilidades predictivas

16.15 **Heinrich Bahlburg** (Westfälische Wilhelms-Universität Münster): Tsunami deposits past and present, the determination of recurrence intervals, and the estimation of long term tsunami hazards

**3.04.2011****2. Landslides**

09.30 **Edmund Krauter** (Johannes Gutenberg-Universität Mainz): Causes of landslides and their mitigation

10.15 Coffee break

10.45 **Hernando Baggio** (UFVJM – IH, Brasil): Landslides in the mountainous region of Rio de Janeiro 2011: magnitude and consequences

**3. Volcanic eruption and lahars**

11.30 **Bernardo Pulgarin** (INGEOMINAS, Columbia): Erupciones del Volcán Nevado del Huila durante 2007-2008, lahares generados y manejo de la crisis volcánica

12.30 Lunch

**4. Regional examples**

14.15 **Dirk Balzer & Dirk Kuhn** (BGR, Hannover): Evaluation of risk exposure to natural hazards in Central America

14.45 **Héctor de León-Gómez et al.** (U Monterey, Mexico): Geological risks in Mexico, example Monterey, Nuevo Leon

15.15 **Nury Morales** (Universidad de Costa Rica): Riesgos geológicos en la zona sur de Costa Rica

15.45 Coffee break

GEO-Network of Latinamerican-German Alumni

16.15 **Humberto Duque** (Colombia): Natural disasters in Colombia and their impact on the population

**5. Climatic change – regional perspectives**

16.45 **Jörg Matschullat** (TU Bergakademie Freiberg): Managing regional climatic change – a regional example from Saxony, Germany

17.15 **Heinrich Horn** (Universidade Federal de Minas Gerais, Brasil): Cerrado-Caatinga-Brazil desertification processes

04.04.2011

**6. Extreme weather conditions, dust and aerosol, coastal protection**

- 09.30 **Jörg Matschullat** (TU Bergakademie Freiberg): Drought and torrential rains, hail, dust and aerosols storms, tornados and flooding, hot spells and deepfreeze conditions – what does reality say in a moderate climate zone?
- 10.00 **Allan Pierra Conde** (Instituto Superior Minero Metalúrgico, Moa, Cuba): Riesgo por eventos hidro-meteorológicos extremos, polvo y aerosoles: Un estudio de caso en Cuba Oriental.
- 10.30 **Yosbanis Cervantes** (Instituto Superior Minero Metalúrgico, Moa, Cuba): Manejo Integrado Costero en Regiones Mineras

11.00 Coffee break

**7. Water contamination**

- 11.30 **Broder Merkel** (TU Bergakademie Freiberg): Water contamination: Risk and management
- 12.15 **Heinrich Horn** (Universidade Federal de Minas Gerais, Brasil): Carstic area of São Francisco Valley, Brazil

12.45 Lunch

**8. Terminology, planning, mitigation and public outreach**

- 14.15 **Andreas Hoppe** (TU Darmstadt): 2D and 3D decision support systems for geopotentials in the peripheries of urban areas
- 14.45 **René Dávila** (Universidad Autónoma de Nuevo Leon, Monterrey, Mexico): Multicriteria evaluation to reach sustainable land-use in urban environments including hydrogeological parameters
- 15.15 Coffee break
- 15.45 **Reginald Hermanns** (Norwegian Geol. Survey, Trondheim): Transforming geoscience knowledge into disaster prevention action in the Andes: Lessons learned from the MAP:GAC experience
- 16.15 **Daniel Rubiolo** (Rubiolo Consultant Geology, Argentina): Planificación para el uso del territorio y mitigación de amenazas naturales en Argentina
- 16.45 **Carmen Almaguer & Allan Pierra Conde** (ISMM, Moa, Cuba): Percepción social del Riesgo de Desastres
- 17.15 **Anke Friedrich** (LMU München): Earthquake hazards in intraplate settings – examples from Central Europe (*related to Topic 1*)
